Biography

Dr. Tommy Pechin III is a board certified family medicine doctor with Goshen Physicians Family Medicine Pro Park. He has advanced training in a broad range of medicine to treat adults and children with common health issues.

Dr. Pechin provides a continuity of care for the entire family. His comprehensive approach spans the spectrum from wellness checkups, routine health screenings and immunizations to management of chronic conditions. In-office procedures he provides include removal of skin growths, such as warts, moles or lesions, injections for joint pain and placement of long-term contraceptives.

Family plays an important role in Dr. Pechin's life. He and his wife, Hannah, live just miles from where Dr. Pechin grew up. His role model is his father, Tony Pechin II, MD, who also practices with Goshen Physicians Family Medicine. Away from his medical practice, Dr. Pechin is devoted to his family and his golf game. He also enjoys cooking, reading and all outdoor activities.

Philosophy of Care

Dr. Pechin believes preventive care is the best medicine. He encourages patients to take an active role in their health and wellbeing. His holistic approach means Dr. Pechin cares about the whole person, not just the disease or illness.
