Biography

Fiona N. Denham, MD, FACS, is a board certified and fellowship trained breast surgeon specializing in breast oncology as well as benign diseases of the breast and management of high-risk breast patients. She sees patients at the Goshen Retreat Women's Health Center and performs all surgeries at Goshen Hospital.

Philosophy of Care

As a breast surgeon, Dr. Denham is committed to working as a partner with women and their families to provide excellent surgical care in a compassionate and comfortable environment. Patient autonomy and individualized decision-making are of paramount importance to establish a surgical plan that fits each patient's values and lets them feel empowered in their own care. Dr. Denham collaborates with other members of Goshen Hospital's breast multidisciplinary team to devise treatment plans that address the well-being of the entire patient.
