Biography

Lenora Hirschler MD, is a board certified family physician with over 10 years of experience. She sees patients in the outpatient setting and provides primary care for the whole family, excluding pregnancy care.

Philosophy of Care

Dr. Hirschler provides primary care for the whole patient within the context of their family and community. She works to ensure each patient and family have the tools necessary to make the best decisions about their health. She listens to patients and gets to know them, to gain insight into which treatment approaches would be best-suited for them. With her guidance, Dr. Hirschler hopes to see her patients through their health challenges.
